Letters of credit and bills of exchange have their merits, of course—but, when traveling, positively the best way of carrying funds is through the medium of TRAVELERS' CHEQUES.

Stores and hotels all over the world are glad to accept them at par; even if you lose the actual cheques their value may be recovered; your counter-signature makes them negotiable; they are inexpensive.

**WILLETT AND GRAY'S WEEKLY REPORT ON SUGAR CONDITIONS**

from last year. Our impressions regarding the size of the crop will follow later.

The European beet crops are favorably reported by F. O. Licht.

The Hamburg parity at New York is now 9.25c per lb. above the Cuban parity. This reduction is turning attention toward Java for sugar for arrival here in October. Intimations are made by sellers of such sugars that July-August shipment might be bought at 10c. 3d. c. & f. (3.53c), landed New York, which price is above buyers' views, but gives some indication that buyers and sellers may eventually get together on some cargoes of Java.

The United Kingdom is reported to have bought one cargo of Java for shipment. Any sales of Java sugars to the United Kingdom or to the United States on the Cuban parity basis would indicate that the far east has a sufficient supply in hand of Java and that sales of such to the United Kingdom and America may be renewed after a considerable period of non-shipsments thence.

It is of interest to note that the first shipment of 5,500 tons Cuba sugar to Japan arrived at Moji April 17.

**European Beet Crop.**

F. O. Licht cables us specially from Magdeburg, Germany, June 5, 1914: "Weather mostly favorable for field work and favorable for the growing crop. Warmth is wanted."

June 9, 1914: "Weather rather favorable for field work and favorable for the growing crop."

**Cuba Crop.**

Special cables received by us from Havana, Cuba:

June 5, 1914: "Weather fine; 30 Centrals grinding; against 60 last year and 46 in 1912."

June 9, 1914: "Rain is falling in light showers; 28 Centrals grinding; against 49 last year and 28 in 1912."

**Cuba.**

According to special reports received by us from all parts of the island for the week ending June 5, 1914—The rainy weather seems to have stopped for the present, and the Centrals which have not closed down are now grinding under the most favorable conditions. The warm, dry weather which now prevails is permitting much needed field work to catch up.

**Cuba Crop.**

Government weather report for the week ending May 30, 1914.—Rainfall—The winds of the week were generally light, the most abundant falling in the districts of Bahia Honda, San Cristobal, Batabano, San Nicolas, Remedios and Niquero. Light rains occurred in Pinar del Rio, Jovellanos, and the north coast of the province of Oriente. Thunder and lightning accompanied the storms. It was very foggy during the earlier part of the week, and the winds were of the first and second quadrants. A slight earthquake occurred in Batabano on the 27th. The rainfall registered was 1.23 inches.

**ALL-STUDENT BALL TEAM OFF FOR KAUAI**

The strong All-Student baseball team organized by Bill Inman will sail tonight on the Kaima for Kauai, for three games on the Garden Island. The morning of the 4th the team will play the winner of the Kaima League first series, and Saturday and Sunday afternoons an All-Kaima team will form the opposition.

The team returns on the 8th, and will leave again for Maui on the 10th, playing an All-Maui team on the 11th, 12th and 13th.

The following players will make the trip:  
H. Baldwin, W. Inman, E. Gay, G. Quintal, D. Takeuchi, Kim Wai, A. Yap, D. Wadsworth and H. Nye.

Two novelties to aid gardeners are a hoe with a seed box near the blade with which the planting may be done and a shovel with a second grip part way down the handle.
